Rocks Burned

## NEARBY BUILDINGS SAVED

The Hotel Had Been Filled with People  
But Last Night When Fire Occurred There Were Only  
Seventeen.

Biddeford, Me., Sept. 10.—The Tannerson, a three-story summer hotel at Fortune's Rocks, was burned early last night. The fire started in one of the upper rooms and was soon beyond control of the hotel employees, although they succeeded in saving nearly everything in the building. The hotel had been filled with guests from all over New England and elsewhere during the summer, but the season was to close this week, and there were only 17 left. All escaped without injury.

The hotel was built two years ago by Clarence F. Sawyer and Charles V. Tannerson of Biddeford. It accommodated about 100 guests, and the loss, which is partially covered by insurance, is estimated at \$10,000. Assistance was summoned from Biddeford and Biddeford Pool, and by hard work the fire was prevented from spreading and destroying some fine summer homes close to it.

Today and Told About Shooting  
Major Dreyfus.

Paris, Sept. 10.—Louis Gregori, the Paris journalist was placed on trial to-day for shooting Major Dreyfus on June 4. The expected sensations failed to develop. None of the important witnesses appeared except Dreyfus, and it is possible the case may be dropped entirely. In answering the charge Gregori said "I acknowledge I went to the Pantheon with the intention of provoking a scandal, but my purpose was not against Dreyfus personally, whom I do not hate, but against Dreyfusism and the politics that the whole canonization ceremony stood for. I aimed at his arm, knowing it would be impossible to injure him seriously." The court then adjourned.

MERCILESS POUNDING  
WORE DOWN JOE GANSBattling Nelson Again Demonstrated  
His Right to Title of Light  
Weight Fighting Cham-  
pion.

San Francisco, Cal., Sept. 10.—Battling Nelson clinched his claim to the lightweight pugilistic championship by defeating Joe Gans for the second time at Colma Arena yesterday afternoon. The fight ended in the 21st round when Gans, beaten down by a succession of blows from his sturdy conqueror, failed to get upon his feet within the count of ten. The veteran colored fighter was severely punished but the champion too bore the marks of battle. From the first clang of the gong to the last moment Nelson forced the fighting, never giving ground and gradually battered down his older and less vigorous opponent.

Gans succumbed in the twenty-first round after being unmercifully trounced Nelson in this round rained right and left blows to the jaw and body and Gans sank to the floor. Mechanically the now defeated fighter watched Referee Eddie Smith wave his hands, apparently too far gone to hear him count. Not until the count of ten was finished did Gans, ashen pale, his face terribly cut and his eyes glassy, attempt to rise. He realized, however, that it was too late and feebly declared: "I have positively fought my last battle."

The fight was spectacular and at no time did it appear that Gans had a chance to win. Time and again he would shoot wicked punches at Nelson's face and body but the latter never for an instant wavered. Failing to arrest the rushing champion at any stage, Gans seemed to lose heart and gradually weakened, though he often rallied and fought back fiercely.

Referee Smith after the fight gave out the following statement: "Gans was all in after the ninth round. In the twenty-first both the time-keeper and myself counted ten, therefore making Nelson the winner. Gans, I believe, did not know he was counted out but it is just as well that he was, for Nelson had him completely at his mercy and it was useless for the game colored man to take a further beating."

When Gans was seen in his dressing room his face presented a terrible picture. His right eye was closed, the left partially so; his lips and nose were badly lacerated and his face was puffed out like an inflated balloon. He gave the following statement:

"I made one fight too many. Nelson is a tough guy and beat me fairly. I will never fight again. This is no Patti farewell, but in dead earnest."

BALLOON GOT AFIRE  
AND AERONAUT FELLWilliam Coby, a Youthful Experimenter  
in Air Travelling Was Probably  
Fataally Hurt.

New York, Sept. 10.—In view of 7,000 persons at the Richmond county fair, held at Dongan Hills, Staten Island, yesterday, William Coby, a youthful balloonist of Milwaukee, Wis., fell from an exploded balloon and was probably mortally injured. A baby lion, which Coby had taken up with him, also fell but landed on the prostrate form of the aeronaut and escaped unhurt.

In the crowd that saw the accident were many Democratic politicians, this being Democratic day at the fair. Among them were Louis F. Nixon, former leader of Tammany hall and Richard W. Sherman, former mayor of Utica, and a brother of the Republican candidate for vice-president.

It was the intention of Coby to let the lion and its parachute go when the balloon was up 250 feet and to make a parachute drop himself when he was up 500 feet.

When the balloon was about 75 feet in the air a flash of flame was seen and the next instant the big gas bag disappeared and a cloud of black smoke took its place. Parts of the blazing parachutes and trapezes fell among the crowd. The bodies of Coby and the lion were seen to be falling close together. Several women fainted and men turned their heads away dreading to see the bodies land.

Coby was rendered unconscious and did not move after he struck the ground.

He was taken to a hospital, where it was found his spine had been injured and that he had been hurt internally.

It covered fully 225 miles in a round-about course. The aeronauts believed themselves to be on the Maine coast when they landed. At one time the Pittsfield balloon was almost over Boston.

man Also Detained.

Omaha, Neb., Sept. 10.—Dr. Frederick Rustin came to his death by a pistol shot fired by a person unknown, was the verdict of the coroner's jury yesterday. The jury recommends that Charles E. It was stated yesterday by Frederick H. Davis, brother of the man under arrest, that Charles E. Davis had been afflicted for about 15 years with spells of insanity. He has on three different occasions been placed in sanitariums. Two weeks ago he showed signs of mental aberration. His brother at once sent him to Dr. Frederick Rustin for treatment, and he was being treated by that physician at the time of Dr. Rustin's death.

BARRE HORSES WON  
TWO FIRST PLACESAt the Washington Fair Yesterday Af-  
ternoon—"Bigger and Better"  
Characterizes This Year's  
Exhibit.

All roads led to Washington yesterday. The one particular attraction which drew the people there was the 14th annual fair of the Washington agricultural association, which finished to-day. It has been one of the most successful exhibitions that has ever been held in that town. Fully 3,000 people were on the fair ground yesterday afternoon and all appeared in the proper spirit to enjoy all that went to make the fair a success.

"Bigger and better" seems to be the slogan of the Washington association, and all the exhibits were greatly increased in size over those of last season. Of special interest were the exhibitions of stock, including a good number of cattle and horses.

The floral hall was all that a floral hall is expected to be, there being on exhibitions various kinds of handicraft, prize fruit and vegetables, and on one side the Barre shoe company had an extensive display of footwear. A. W. Allen had on exhibition a more extensive display of farm machinery than has ever been set at the fair before.

The "midway" offered the usual attractions with the usual vendors of food, drink and souvenirs; the usual "line-type" tent was doing a rushing business and the man with the inebriating little table was raking in the usual number of the shekels of the unwary.

There were three races during the afternoon, the green race, the 2:24 class, and a hitch-up race. Honors in the green race and the 2:24 class both went to Barre horses, Fred Brown's "Golden Maid" taking the green race in straight heats, while "Lady Whitcomb" of the Smith Stock Farm took the 2:24 class in one, two, three order.

The results were:

Green Race, Purse \$50.

Madeline Wilkes, Gokey ..... 2 3 3  
William H., Wood ..... 3 2 4

Time, 2:30 3/4, 2:29, 2:32.

In the hitch-up race, the drivers were obliged to hitch up their horses in front of the judge's stand and walk them the first half mile and trot or pace the last. The entries as they finished were as follows: Norman Turney's entry first, J. Lawler's second, J. H. Clough's third, and Roy Scott's fourth. Time, 9:31.

Herbert A. Rugg of this city acted as starter and John Trow and William Mears of Barre Town and William Worthley of Washington were the judges.

BARRE MEN TO BE SENT  
TO DENVER CONVENTIONP. F. McCarthy and Jesse Miller Were  
Elected Delegates to the Denver  
Convention of American  
Federation of Labor.

A unanimous re-election has just been accorded Patrick F. McCarthy of this city as secretary-treasurer of the Quarry Workers' International union of North America, a position which he has held for five years, or ever since the international union was formed. Mr. McCarthy came off the quarry at Woodbury to take up this executive work, and that he was the right man for the place has been proven by his success. The international union has enjoyed a remarkable growth in the past five years, there being branches now scattered all over the United States and in many parts of Canada. Barre will continue to be the headquarters of the union and also the place of publication of the Quarry Workers' Journal, which Mr. McCarthy edits.

The election for delegates to the national American Federation of Labor convention at Denver resulted in the selection of the secretary-treasurer and of Jesse Miller, secretary of the Graniteville branch of the international union. There were thirteen candidates for the two positions. Both delegates are prominent in their organizations, and in addition Mr. McCarthy is president of the Vermont branch of the American Federation of Labor, general organizer for the national A. F. of L., a member of the New England civic federation's executive committee, and, locally, he is a delegate to the Barre Central Labor Union.

WORKMEN FOUGHT  
TO SAVE HOUSESThey Did Keep One from Burning Down,  
But Angus A. Smith Lost One  
at Granville Late  
Yesterday.

A cottage house at Granville, owned by Angus A. Smith of this city and occupied by the family of John Ravecraft, was burned to the ground shortly after four o'clock yesterday afternoon. The house was near the E. L. Smith & company quarries, and as soon as the flames were discovered workmen from the quarries ran to the scene and attempted to extinguish the fire; but owing to the distance from an adequate supply of water it was impossible to do this.

Another house nearby, also the property of Mr. Smith, was in flames several times, but the men were able to save this and the furniture belonging to the Ravecraft family, which was in the burned house. The fire is thought to have been caused by children, who may have dropped matches in some hay or straw which was in a shed at one end of the burned house. Mr. Smith sets his loss at about \$1,000, partially covered by insurance in the G. Herbert Page agency.

## THIS BUSINESS GROWING.

Barre Gets a Direct Money Transfer  
Telegraph Office.

In these days of commercial rush, men have even got the better of old Father Time himself, and people in Barre can send money to their friends in Scotland and Italy to-night and have it delivered by to-morrow morning, while money can be delivered to any part of the United States or Canada in minutes only. The marvel is done by the aid of the telegraph wire.

Barre people have become so accustomed to using the wire to send money that the local office of the Western Union has just been made a direct money transfer office; that is, the operator here can send money to any place without going through the necessity of telegraphing it to the superintendent's office at New Haven, Conn., and then having it relayed to the place of destination. Now Agent Kelley wires your money direct to destination, and thus the delay caused by the relaying of the message is avoided.

Agent Kelley says that the amount of business done in this way is surprising. All you have to do is to deposit your money with the local office and the receiver of the message on the other end draws the money, under suitable identification. Money can be sent to all parts of the world where the telegraph wire reaches. There are only four other direct money transfer offices in Vermont.

## FOR THIRTY-NINTH YEAR

There is a Large Attendance—Three  
Changes Have Been Made in the  
Faculty—One New Teacher Is  
Prominent Tufts Athlete.

Goddard seminary's 39th annual school year opened yesterday with a large registration of about 150 students and the year, the first under the leadership of the new president, the Hon. Charles H. Darling of Burlington, promises to be most successful and prosperous. There are three new teachers this year.

One of them, Miss Olive P. Calf of Washington is a graduate of Goddard in '01, of the Randolph normal and the Bridgewater, Mass., normal. Miss Calf will teach Methods and also assist in the English work. Harold D. Wilson of Shoshone Falls, Mass., a graduate of Tufts last year is the new instructor in physics and science, and the new head of the business department is Rowland W. Rand, a graduate of the Dorchester, Mass., high commercial department. Miss Isham, who was absent from the school most of last year on account of ill health, is able to take up her work again this fall, her health greatly improved.

The other teachers besides Principal C. N. Hollister are Miss Gower's II, Geny, French and German, Miss Mrs. Darwin, painting and drawing, Mrs. Alice N. Averill, piano; Fred W. Burnham, Latin and Greek; Harley W. Heath, science and mathematics, and Lewis G. Griffiths, voice. The teachers who did not return this year were Miss Hull, Mr. Delano and Mr. Perkins.

In Prof. Wilson, the new instructor in physics, the school has an excellent coach for its athletics. Mr. Wilson was the best end Tufts had last year on its football team and he was also prominent in basketball, playing forward on the varsity five. He has already started on the work of building up a football eleven at the seminary and although there are only two of last year's players to come back, there is every promising material among the new students and given the benefit of his experience and knowledge of the game, the prospects are very bright for a good eleven on the "hill" this fall.

Harrison, who is captain this year, and Alexander are the only two of last year's team who will be in the game this season. Many of the students have not yet arrived but there were thirteen candidates out in uniform yesterday afternoon and were drilled by the coach in catching and felling on the ball and punting. The thirteen in the squad yesterday are of good weight and all of them have had some experience in the game in high schools.
